Foreword of the Chairwoman of the Board of Directors

Radmila Jakubová
Chairwoman of the Board of Directors

**Dear Shareholders, dear Business Partners,
dear Colleagues,**

On behalf of the Board of Directors it is my pleasure to present to you the Annual Report of Factoring České spořitelny for 2011.

While 2011 was for the Czech economy in the sign of slight growth, Factoring České spořitelny, a. s., was strengthening its leading position on the Czech factoring market, reached significant increase in the turnover and best financial results ever.

In 2011 the company reached the turnover of assigned, administered, and monitored receivables of 41.7 billion CZK, from which the volume of assigned receivables represented 40.3 billion CZK. Compared to last year, this figure represents a dramatic increase of nearly 38 %. The market share of Factoring České spořitelny, a. s., increased to 31.8 % in 2011.

The results of our business strategy showed in the eco-

nomical results of the company, which reached the profit of 34.1 million CZK. The positive economic result was influenced by the significant increase of turnover, higher value of funds placed on the market and resulting growing margins. The profit was also influenced by lower need for rectifying items compared to past years and sale of the share in the daughter company in Croatia.

The Company also managed to develop close cooperation with the home bank and its business network, to enter new client's segments, especially among large corporate clients, to fund many domestic medium-size and small companies, and thus support their further development.

Factoring České spořitelny, a. s., continued to develop and standardize the methodology of work processes which enables, along with intense use of information technologies, to increase the quality of processes that are important for good working of a factoring company and that are also shown in increased quality standards of services for our clients.

I would like to thank to all our business partners, representatives of our only shareholder, fellow workers in the Financial Group of Česká spořitelna as well as Erste Bank, and colleagues in our Company. I appreciate the approach of those who contributed to good cooperation and positive sides of our results. Let me now wish you good luck at work as well as in your personal lives.

Company's Profile

Factoring České spořitelny, a.s. was established in November 1995 as CS Factoring s.r.o. In 1997 the Company was transformed into a joint-stock company while Česká spořitelna got a share of 10 %. On 20th June 2001 it bought the rest of shares from original owners and it became a 100 % owner of the Company.

Since 2009 the seat of the Company has been Budějovická 1518/13B, Prague 4.

The basic capital reaches 114 million CZK.

Activities are focused mainly on domestic, export, and import factoring for small, medium, and large corporate clients, complete administration and screening of receivables for broad corporate clientele in various sectors of industry and trade.

Among industries that dominate in the portfolio of our clients are mainly companies working in metallurgy, car and consumer industry, chemical industry, food industry, suppliers of various range or products to chain stores, advertising and media industry, distributors of fuels, etc.

After 2010 market recovery, 2011 brought significant development

to factoring market; nevertheless, it still does not reach figures as before the crisis in 2008. **Factoring České spořitelny, a.s., grew much more vigorously than the average market rate was; it increased its market share from 27.3 % in 2010 to 31.8 % at the end of 2011, and thus strengthened its leading position on the factoring market in the Czech Republic.**

In 2011 the company also continued in realization of several fundamental strategic projects:

- deepening the system of cooperation with home bank and making it more effective, especially in the field of trade and risk management;
- increasing the care of administered portfolio of client's receivables;
- implementing new processes aimed at quality of services;
- systemization and deepening work with collecting overdue receivables and elaborating and improving processes of enforcement.

One of the fundamental requirements for future success stays a close cooperation with the home bank – Česká spořitelna, high-quality and professional risk management, flexible reaction to market needs, and keeping a high standard of services provided to the Company's clients.

Company Management Report

2011 was for the global and Czech economy a year of moderate growth still affected of impacts of economic crisis of previous period. Economic recovery showed in growth of assigned and financed/sold receivables, and in overall improvement of economy of Factoring České spořitelny, a.s., which despite adverse climate in the Czech economy recorded best results ever. The growth of economic activities of many business subjects, among which major part of the Company's clients, foreshadows further potential of factoring market growth in the Czech Republic in years to come.

Significant growth of annual turnover was influenced by positive financial results of the Company, keeping its most prosperous clients and activating business activities supporting increase of new deals, and compared to last year, a smaller amount of reserves for rectifying items. The Company also managed to place more funds on the market so needed for growth of firms from the segment of small, medium, and large corporate companies.

For a decade now Factoring České spořitelny, a.s., has represented a stable part of Financial Group of Česká spořitelna, which enabled and still enables it to solve many problems which in the Czech economy emerged due to the financial and economic crisis, and actively respond to them. The membership in the strong financial group guaranteed the ability of keeping stable funding of clients despite general deterioration in access of business subjects to credit sources on the Czech market. Factoring České spořitelny undoubtedly helped to keep favourable conditions for enterprise to many of its older as well as new clients and enabled them to grow in uneasy economic conditions.

Factoring České spořitelny also in 2011 fulfilled its principal strategy from past years which was focused on keeping the leading position on the Czech market of factoring services gained already in 2004. The Company's turnover of 41.7 billion achieved in 2011 and the market share of 31.8% confirmed achieving this goal and maintaining the first place on the factoring market in the Czech Republic, which can be considered as great success of the strategic management of the Company.

Also year 2011 was characterized by on-going growth of credit and operational risks, especially numerous insolvencies, bankruptcies, and restructuring in the economy. These aspects had influence on creating new rectifying items whose amount, however, does not reach values of past years. The Positive economic result thus affected a significant growth of margins and savings of part of operational costs and last but not least the sale of share in Erste Factoring Croatia d. o. o.

In 2011 the Company continued in more strict use of the complete concept of risk management created in past years, which

was built up with regard to maximum possible elimination of emerging credit as well as operation risks. In relation to possible hedging, the structure and volume of funds in individual product groups changed, sale of main and additional services focused on work with of clients with receivables in the stage before and after financing grew. Another distinct aspect fitting in the strategic management of the Company is development of active cooperation with three, or more precisely four since the beginning of 2012 credit insurance companies on the Czech market. The goal of these processes is to eliminate and diversify our own risks and an effort to help clients assess the quality of their customer's portfolio, prevent negative impacts of non-standard situations, and minimize financial losses.

The Company's management paid attention to the development of business activity. This activity was focused mainly on deepening co-operation with the home bank as well as development of its own business network in order to improve client service, its quickness and quality. A flexible and high-quality business network which covers the area of the whole republic enabled us to map and cover requirements of clients and to keep the client portfolio at the level comparable to previous years. The fact of slight growth in the number of processed and funded receivables proves the stability of client base and economic recovery of the factoring portfolio.

A stable offer of products of the Company with an accent on basic types of factoring enables clients to use a wide range of financial as well as non-financial products which they were used to in the past. These modern and flexible financial instruments helped to stabilization and growth of their business in the after-crisis economic environment of last year.

Risk management department also in last year, affected by the crisis, took part in realization of intentions of the Company and its deeper integration within the whole Financial Group. The process of methodology and working procedure standardization along with intense use of information technologies enabled us to keep high quality of those activities considered key for good running of a factoring firm. Good prevention and well-timed response to non-standard situations, enabled to minimize losses. A long-term process of quality improvement of risk management started in the past thus showed in stabilization of portfolio quality and in higher effectiveness of collecting, enforcing, structuring, and closing more risky exposures.

Operation department ensured smooth realization of current deals and providing a high-quality client service, accompanying individual types of factoring products. Quality work of this department with the portfolio of assigned receivables significantly

decreases both the credit risk of the Company and client credit exposures formed by provided supplier's credits to their customer's. At the same time it improves the liquidity management and stability of funded work capital of most of the clients which are important and beneficial functions of financial management of the Company.

Financial department in 2011 focused on improvement of financial management of the Company, aiming at decreasing operational costs, optimization of financial flows management, decreasing negative impacts of volatility of foreign exchange markets, and ensuring its stable liquidity. Most of these processes were successfully managed based on great cooperation with Česká spořitelna.

IT and Telecommunication Technologies department provides a stable technical and technological operation of the Company and contributes not only to the high quality and safe operation of the Company, but also to corporate innovative process as for products, as for technologies. In 2011 a backup department was established enabling a smooth operation of the Company in case of unexpected situation, technical infrastructure was improved as well as the quality and safety of work with the data processed.

In 2011 Factoring České spořitelny, a.s., strengthened its leading position on the market and achieved the best financial results ever. The results achieved of last year, common effort of members of the whole team, all members of the Company management, and support from its only shareholder allow us to be optimistic for the years to come.

Supervisory Board Report

The Supervisory Board of Factoring České spořitelny, a.s., just as in previous years, in accordance with its scope of authority, which is defined by the Commercial Code and Articles of Association, in the accounting period of January to December 2011 performed the role of supervisory and controlling body of the Company. The Supervisory Board supervised the activities of the Board of Directors and economic situation and business activities of the Company.

In accordance with requirements set by the Articles of Association the Supervisory Board realized four meetings in 2011. The Supervisory Board was concerned with questions of business and economic strategy and policy of the Company.

In accordance with its powers under legal provisions and Articles of Association, the Supervisory Board discussed the Report on Business Activities and Condition of Assets for 2011, and oversaw the financial statements of Factoring České spořitelny, a.s., submitted by the Board of Directors. In accordance with the auditor's statement of Ernst & Young Audit, s.r.o., the Supervisory

Board believes that the financial statements fairly and faithfully reflects the state of assets, liabilities, equity, and financial situation of Factoring České spořitelny, a.s., in all respects as of 31 December 2011, and are reported according to the Act on accountancy and related rules of the Czech Republic. Therefore, the Supervisory Board recommends approving the 2011 annual financial statements of Factoring České spořitelny, a.s., and the proposal to settlement of the profit submitted by the Board of Directors.

The Supervisory Board reviewed the Report on Relations in accordance to the Section 66a paragraph 9 of the Commercial Code and states that information in it is correct and complete.

Independent Auditor's Report

To the Shareholder of Factoring České spořitelny, a. s.:

I. We have audited the financial statements of Factoring České spořitelny, a. s. („the Company“) as at 31 December 2011 presented in the annual report of the Company on pages 12 - 29 and our audit report dated 25 February 2012 stated the following:

„We have audited the accompanying financial statements of Factoring České spořitelny, a. s., which comprise the balance sheet as at 31 December 2011, and the income statement, statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes. For details of Factoring České spořitelny, a. s., see Note 1 to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the Czech Republic, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Act on Auditors and International Standards on Auditing as amended by implementation guidance of the Chamber of Auditors of the Czech Republic. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including an assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Factoring České spořitelny, a. s. as at 31 December 2011, and its financial performance and its cash flows for the year then ended in accordance with accounting principles generally accepted in the Czech Republic.“

II. We have also audited the consistency of the annual report with the financial statements described above. The management of Factoring České spořitelny, a. s. is responsible for the accuracy of the annual report. Our responsibility is to express, based on our audit, an opinion on the consistency of the annual report with the financial statements.

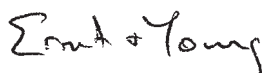

We conducted our audit in accordance with International Standards on Auditing and the related implementation guidance issued by the Chamber of Auditors of the Czech Republic. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the information presented in the annual report that describes the facts reflected in the financial statements is consistent, in all material respects, with the financial statements. We have checked that the accounting information presented in the annual report on pages 2–7 is consistent with that contained in the audited financial statements as at 31 December 2011. Our work as auditors was confined to checking the annual report with the aforementioned scope and did not include a review of any information other than that drawn from the audited accounting records of the Company. We believe that our audit provides a reasonable basis for our opinion.

Based on our audit, the accounting information presented in the annual report is consistent, in all material respects, with the financial statements described above.

III. In addition, we have reviewed the accuracy of the information contained in the report on related parties of Factoring České spořitelny, a. s. for the year ended 31 December 2011 presented in the annual report of the Company on pages 30–32. The management of Factoring České spořitelny, a. s. is responsible for the preparation and accuracy of the report on related parties. Our responsibility is to issue a report based on our review.

We conducted our review in accordance with the applicable International Standard on Review Engagements and the related Czech standard No. 56 issued by the Chamber of Auditors of the Czech Republic. Those standards require that we plan and perform the review to obtain moderate assurance as to whether the report on related parties is free from material misstatement. The review is limited primarily to enquiries of company personnel, to analytical procedures applied to financial data and to examining, on a test basis, the accuracy of information, and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the report on related parties of Factoring České spořitelny, a. s. for the year ended 31 December 2011 is materially misstated.

2. Basis of Accounting and General Accounting Principles

The Company’s accounting books and records are maintained and the financial statements were prepared in accordance with Accounting Act 563/1991 Coll., as amended; Regulation 500/2002 Coll. which provides implementation guidance on certain provisions of the Accounting Act for reporting entities that are businesses maintaining double-entry accounting records, as amended; and Czech Accounting Standards for Businesses, as amended. The accounting records are maintained in compliance with general accounting principles, specifically the historical cost valuation basis, the accruals principle, the prudence concept and the going concern assumption.

These financial statements are presented on the basis of accounting principles and standards generally accepted in the Czech Republic. Certain accounting practices applied by the Company that conform with generally accepted accounting principles and standards in the Czech Republic may not conform with generally accepted accounting principles in other countries.

These financial statements are presented in thousands of Czech crowns (“CZK”).

Information presented in the accompanying financial statements has been included in the financial statements compiled by the parent company, Česká spořitelna a.s., in accordance with International Financial Reporting Standards. Česká spořitelna a.s. is recorded in the Register of Companies held at the Prague Municipal Court, Volume B, File 1171, and the consolidated financial statements are filed with the Court.

3. Summary of Significant Accounting Policies

3.1 Tangible and Intangible Fixed Assets

Valuation

Tangible fixed assets include assets with an estimated useful life greater than 1 year and an acquisition cost greater than CZK 13 thousand on an individual basis. Tangible fixed assets also include selected low value tangible assets with an estimated useful life greater than 1 year and an acquisition cost lower than CZK 13 thousand.

Intangible fixed assets include identifiable assets without physical substance with an estimated useful life greater than 1 year and a cost greater than CZK 60 thousand.

Purchased tangible and intangible fixed assets are valued at acquisition cost which comprises the purchase price and incidental acquisition costs (assembly, freight, etc).

Tangible assets with a cost below CZK 13 thousand which are not included in selected low-value fixed assets, technical improvements with a cost below CZK 40 thousand and intangible assets with a cost below CZK 60 thousand are charged to expenses in the period in which they were acquired.

The cost of fixed asset improvements exceeding CZK 40 thousand and CZK 40 thousand, in aggregate for individual tangible and intangible fixed assets, respectively, for the taxation period increases the acquisition cost of the related fixed asset, if completed.

Depreciation for Accounting Purposes

Depreciation and amortisation of tangible and intangible fixed assets for accounting purposes commences in the month following the month when the assets were put into use. The assets are depreciated using the straight line method over their estimated useful lives based on the depreciation/amortisation plan.

The depreciation/amortisation periods of the individual categories of assets are as follows:

| Category of assets | Depreciation period in years |
|--|------------------------------|
| Software, licenses and other intangible assets | 4 |
| Selected low value tangible assets | 2 |
| Vehicles | 4 |
| Machinery and equipment | 4–6 |
| Other equipment | 4–12 |
| Technical improvements of leased building | 8 |

The depreciation period in years is established pursuant to the estimated useful life of the fixed assets.

3.2 Non-Current Financial Assets

Valuation

Securities and equity investments are initially carried at cost upon acquisition. The cost of securities or equity investments includes direct costs of acquisition, such as fees and commissions paid to brokers, advisors and stock exchanges.

At the date of acquisition of the securities and equity investments, the Company categorises these non-current financial assets based on their underlying characteristics as equity investments in subsidiaries and associates or debt securities held to maturity or securities and equity investments available-for-sale.

As at the balance sheet date, the Company records:

- Equity investments in subsidiaries and associates at cost;
- Debt securities held to maturity at cost increased to reflect interest income (including amortisation of premium or discount, if any); and
- Securities and equity investments available-for-sale at fair

value if determinable. If it is not possible to determine the fair value, the acquisition cost valuation is used. The change in the fair value is recorded in equity through the “gain or loss on revaluation of assets and liabilities” line item.

Valuation approach

If the carrying value of non-current financial assets that are not revalued at the balance sheet date decreases, the difference is considered a temporary impairment and is recognised as a provision.

At the balance sheet date, securities and equity investments available-for-sale denominated in a foreign currency are translated using the exchange rate of the Czech National Bank prevailing as at that date. Any resulting foreign exchange rate gains or losses are treated as a component of fair value or equity method valuation.

3.3 Inventory

Purchased inventory is valued at acquisition cost. Acquisition cost includes the purchase cost and indirect acquisition costs such as customs fees, freight costs and storage fees during transportation, commissions, insurance charges and any discounts.

3.4 Receivables

Upon origination, receivables are stated at their nominal value. Doubtful and irrecoverable amounts are subsequently reduced by the relevant allowances.

The Company accounts for factoring receivables on a “gross” basis. The factoring receivables are recognised in the nominal amount through assets as short-term trade receivables and the related payables to suppliers and the Company’s clients, as appropriate, are recognised through liabilities as short-term trade payables. The short-term receivables represent the nominal amount of the Company’s receivables from end customers.

The prepayments made with respect to the provision of recourse factoring are posted to the short-term trade receivables line in the balance sheet.

Method of allowance creation

Effective from 2010 the Company has been creating allowances for accounting purposes on the basis of the calculation of expected loss to be incurred on funds placed with clients, using probability of default testing and taking into account clients’ and their customers ratings.

The allowances are created on a monthly basis using the following formula:

Expected loss = Maximum exposure not covered from settlement * probability of customer default + (Actual amount of client liabilities – total of collateral values contractually signed with the client) * Probability of client default where the value (Maximum exposure not covered from settlement * probability of customer default) corresponds to the maximum of this product in the customer portfolio of the respective client.

Specific allowances are created against special workout receivables.

3.5 Equity

The share capital of the Company is stated at the amount recorded in the Register of Companies maintained in the Municipal Court. Any increase or decrease in the share capital made pursuant to the decision of the General Meeting which was not entered in the Register of Companies as at the financial statements date is recorded through changes in share capital. Contributions in excess of share capital are recorded as share premium. Other capital funds consist of monetary and non-monetary contributions in excess of share capital and contributions from profit after tax.

3.6 Bank Loans and Borrowings

Loans are reported at their nominal value. Interest expenses on these loans are accrued and included in profit or loss for the period.

The portion of long-term loans maturing within one year from the balance sheet date is included in short-term loans.

3.7 Provisions

Provisions are liabilities of uncertain timing or amount. A provision is recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reasonably reliable estimate can be made of the amount of the obligation. Provisions are used exclusively for the purposes they were created for. Provision balances are reviewed annually, and the provisions are reversed or carried forward based on the review results.

3.8 Translation of Foreign Currencies

Transactions in foreign currencies during the year are translated using a fixed exchange rate reflecting the Czech National Bank (“CNB”) exchange rate prevailing on the last day of the calendar month preceding the month in which the transaction occurred.

As at the balance sheet date, all foreign currency assets and liabilities are retranslated using the ruling CNB foreign exchange rate as at that date and any resulting translation gains and losses are recorded through the current year’s financial income or financial expenses, as appropriate.

At the balance sheet date, non-current financial investments denominated in a foreign currency were translated using the effective exchange rate promulgated by the CNB as at that date. Any resulting foreign currency translation differences have been included in gains or losses arising from the revaluation of assets and liabilities.

3.9 Taxation

3.9.1 Depreciation of Fixed Assets for Tax Purposes

Depreciation of fixed assets for tax purposes is calculated using the accelerated method.

3.9.2 Current Tax Payable

The tax currently payable is based on taxable profit for the reporting period. Taxable profit differs from net profit reported in the income statement because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Company’s liability for current tax is calculated using tax rates that have been enacted by the balance sheet date.

3.9.3 Deferred Taxation

Deferred taxation is calculated from all temporary differences between the accounting and tax values using the income tax rate that is expected to apply in the tax period when the deferred tax liability is settled or the deferred tax asset is realised. The deferred tax asset is recognised only if it is likely to be offset against taxable income.

3.10 Cash and Cash Equivalents

Cash and cash equivalents are defined as cash at hand, cash in bank or term deposits.

3.11 Revenues

Factoring charges are presented within “Sales of goods and services”. In addition, this caption includes income from know-how and other income relating to re invoicing of services.

Interest claims are recognised as “Interest income”.

Revenues are recognised on an accrual basis, that is, they are recognised in the periods in which the actual flow of the related revenues occurs, regardless of when the related monetary flow arises.

3.12 Use of Estimates

The presentation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Management believes that the estimates and assumptions employed will not differ significantly from actual results achieved in future periods.

3.13 Risk Management

Risks associated with the funding of ceded receivables are mitigated by using the services of insurance companies and by cooperating with partners within the international association of factoring companies (“FCI”). The Company places specific emphasis on the significance of diversifying the receivables portfolio which allows for the amounts recovered to sufficiently cover the partial payments made to clients and allow the Company to exercise a lien.

The Company observes measures and work procedures designed to constantly improve operational risk management over time and to eliminate fraudulent activities by clients.

The Company performs a regular assessment of the impact of exchange rate risks and takes appropriate steps on an ongoing basis to

balance assets and liabilities denominated in foreign currencies. The lending method in the form of overdraft foreign exchange accounts enables the Company to manage the balancing of foreign exchange assets and liabilities and mitigate foreign exchange risks.

With regard to interest rate risk, the Company uses one-month rates both for assets and liabilities; therefore there is no need for hedging of interest rate risks.

In the years ended 31 December 2011 and 2010, respectively, investments in tangible assets predominantly related to hardware equipment and cars.

The Company acquired tangible assets of CZK 83 thousand and CZK 80 thousand that were charged directly to expenses for the years ended 31 December 2011 and 2010, respectively. These assets are low value tangible assets comprising other movable assets and sets of movable assets with an estimated useful life greater than one year not reported within fixed assets. These assets are expensed.

4.3 Non-Current Financial Assets

ERSTE FACTORING d. o. o.

The Company was a 2.5% shareholder in ERSTE FACTORING d. o. o., a factoring company based in Zagreb, Croatia with the share capital of HRK 5,000 thousand. The Company sold its shareholding to ERSTE&STEIERMAERKISCHE BANK d. d. incorporated in accordance with law of the Republic of Croatia for a profit of CZK 9,147 thousand in 2011.

4.4 Inventory

As at 31 December 2011 and 2010, the Company recorded materials inventory of CZK 39 thousand and CZK 77 thousand, respectively, comprising chip cards used to record specimen signatures.

4.5 Receivables

4.5.1 Long-Term Receivables – Deferred Tax Assets

For detailed information about deferred tax assets refer to Note 4.16.

4.5.2 Short-Term Receivables

| (CZK thousand) | Balance at 31 Dec 2011 | Balance at 31 Dec 2010 |
|-----------------------------|------------------------|------------------------|
| Trade receivables | 6,885,724 | 6,235,806 |

| Short-term prepayments made | 1,424 | 1,598 |
| Other receivables | 2 | 0 |
| Total | 6,887,647 | 6,237,902 |

The above receivables principally comprise factoring receivables, which are reported in the balance sheet as “trade receivables”.

The “Customers” caption includes nominal values of factoring receivables and the “Prepayments made” caption includes prepayments made for receivables under recourse factoring.

4.5.3 Aging of Trade Receivables

| Year | Category | Not yet due | | | | | Overdue | Total |
|------|------------|-------------|-----------|------------|------------|-------------|--------------------|-----------|
| | | | 0–30 days | 31–60 days | 61–90 days | 91–365 days | 1 year and greater | |
| 2011 | Short-term | 5,898,547 | 639,088 | 99,096 | 5,244 | 35,327 | 468,047 | 7,1453,50 |
| | Allowances | | | | 9,805 | 39,154 | 210 667 | (259,626) |

| | Allowances | | | | 19,490 | 20,000 | 163,050 | (202,540) |

The average maturity of receivables from customers of the Company’s factoring clients in 2011 and 2010 was 49.30 days and 51.83 days, respectively.

In accordance with the method of creating of allowances for accounting purposes on the basis of calculation of expected loss to be incurred on funds placed with clients (see note 3.4.) the Company created portfolio allowances totaling CZK 9,805 thousand, other accounting allowances have been created for the specific purpose of workout receivables totaling CZK 223,008 thousand and tax-deductible allowances have been created at an amount of CZK 26,813 thousand in 2011.

Of the aggregate amount of allowances, CZK 26,813 thousand and CZK 0 thousand were tax-deductible in 2011 and 2010, respectively. Tax deductible allowances have been created against transferred receivables from clients’ customers and the Company’s own receivables from clients in the instance of bankruptcy proceedings of these entities.

During 2011 and 2010, the Company wrote off receivables of CZK 9,908 thousand and CZK 13,797 thousand, respectively, due to their irrecoverability.

Changes in the allowance accounts (in CZK thousands):

| Allowances against: | Balance at 31 Dec 2009 | Allowance creation | Release of allowance | Balance at 31 Dec 2010 | Allowance creation | Release of allowance | Balance at 31 Dec 2011 |

4.6 Cash and Cash Equivalents

Cash in bank includes balances on current accounts payable on demand.

4.7 Accrued Assets

Accrued assets primarily comprise prepaid expenses arising from fees for bank guarantees and are recognised in the period to which they relate.

4.8 Equity

4.8.1 Share Capital

The subscribed, paid-up and registered share capital amounts to CZK 114,000 thousand and consists of 76 shares with a nominal value of CZK 1,500 thousand per share.

The shareholder provided the Company share premium of CZK 80 million in excess of the share capital.

The shares are not publicly traded, are registered and carry voting rights.

4.8.2 Compensation of the 2010 Loss

In 2011 the Company's sole shareholder, exercising the powers of the general meeting, approved the compensation of the 2010 loss of CZK 1,556 thousand. The loss was transferred to the accumulated loss of previous years, the current balance of which is CZK 43,346 thousand.

4.8.3 Gains and Losses Arising from the Revaluation of Assets and Liabilities

In 2011 the revaluation gain (2010: CZK 64 thousand) from foreign exchange rate gains and losses relating to securities available for sale was realised.

4.9 Payables

4.9.1 Short-Term Payables

| (CZK thousand) | Balance at 31 Dec 2011 | Balance at 31 Dec 2010 |
|--|---------------------------|---------------------------|
| Trade payables | 3,918,852 | 3,657,874 |
| Payables to employees | 1,288 | 1,207 |
| Payables arising from social security and health insurance | 626 | 663 |
| State – Tax payables and subsidies | 10,977 | 4,160 |
| Advances received | 3,560 | 3,468 |
| Unbilled deliveries | 32,216 | 18,950 |
| Other payables | 374 | 0 |
| Total | 3,967,893 | 3,686,322 |

The payables to suppliers represent expected payments in respect of ceded receivables from the Company's clients under non-recourse factoring and the aggregate amount of ceded receivables under recourse factoring.

Unbilled deliveries include predominantly estimates for payroll costs, social security and health insurance payments and estimates for operating services which have not yet been invoiced.

Due to the nature of factoring services, payables are paid after the client becomes entitled to the payment. The Company records no overdue payables.
